

Rosum Corporation to Demonstrate VoIP 9-1-1 Call Location Technology at E9-1-1 Institute Technology Fair

Mountain View, CA – July 11, 2006 – Rosum Corporation announced today that it will demonstrate its award-winning VoIP 9-1-1 call location technology at the E9-1-1 Institute Technology Fair on July 13 in Washington D.C. The event, organized by the E9-1-1 Institute in conjunction with the Congressional E9-1-1 Caucus and the Congressional Internet Caucus, will be held at the House of Representatives Rayburn Office Building on Capitol Hill, from 2-5pm, with a reception at 5-7pm.

The Congressional E9-1-1 Caucus is led by Co-Chairs Senators Conrad Burns and Hillary Clinton, and Congressmen Anna Eshoo and John Shimkus. The Congressional Internet Caucus is led by Co-Chairs Senators Conrad Burns and Patrick Leahy, and Congressmen Bob Goodlatte and Rick Boucher.

Gregory L. Rohde, Executive Director of the E9-1-1 Institute, commented “Rosum’s innovative technology represents a compelling solution to the public safety problem of geolocating nomadic VoIP 9-1-1 calls. I congratulate Rosum for their innovation in introducing a creative solution for emergency communications.”

**

About Rosum: Rosum is the first and only company to use unmodified broadcast TV signals for position location of mobile assets. The Rosum solution is uniquely suited to safety-of-life applications that require always-available position location in urban and indoor settings. Rosum is also the first to combine TV and GPS signals for truly robust situational awareness in all environments. Rosum’s leadership is composed of industry leaders from the GPS, cellular and television worlds, and Rosum’s founding team includes the original architects of the GPS constellation. More information is available at www.rosum.com.

About the E9-1-1 Institute: The E9-1-1 Institute is a bipartisan non-profit whose mission is to support the Congressional E9-1-1 Caucus and assist in promoting public education on E9-1-1 and emergency communications issues. The Institute serves as an information clearinghouse on E9-1-1 and emergency communications issues and as a forum for policy discussions related to E9-1-1 and emergency communications that will benefit public policy development.
